Waiver and Draft Prices

Waiver Price is	$20,000
Major League Draft Price is	25,000

FREE AGENT DRAFT RULE: Major league and National Association clubs participate in two meetings a year for the purpose of drafting free agent player talent. Selection of a free agent entitles the club to the exclusive right of negotiation with the player for a specified period (from the date of selection until 15 days prior to the next draft meeting). Draft meetings are held in June and January.

There are two phases to each draft meeting:

(1) Regular Phase: Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either completed his junior year or become 21 years of age. . .Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level. . .Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase: Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age—now drafted in Regular Phase). . .It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player. . .The order of selection is by lot with the 26 major league clubs divided into two 13 team groups with the groups alternating having first selections in respective drafts.

If a club fails to sign a drafted free agent, its exclusive right to negotiation will expire on a specified date (see below). . .Such a player then becomes eligible to be selected at a subsequent date in the secondary phase of the draft.

Date Selected	Rights Expire
Winter Draft	15 days prior to Summer draft
Summer Draft	15 days prior to Winter draft

REGULATION GAME: A regulation game consists of nine innings unless extended because of a tie score or shortened because (1) the home team needs none of its half of the ninth or only part of it; or (2) because the umpire-in-chief calls the game after five completed innings. A regulation game may be less than five innings if the home team is ahead after the first of the fifth, or takes the lead or ties the score while at bat in the fifth.

TIE GAME: A regulation game that is called by the umpire-in-chief when both teams have the same number of runs is a tie game. Individual player performances are official and are entered in the records, but the game does not count in the League standings and may be re-scheduled at a later date.

SUSPENDED GAME: A game becomes a suspended game if it is terminated for any of the following reasons: (1) a curfew imposed by law; (2) a time limit permissible under league rules; (3) light failure or malfunction of a mechanical field device under control of the home club (including automatic tarpaulin or water removal equipment; or (4) Darkness because of any law, the lights may not be turned on. No game called because of a curfew or a time limit shall be a suspended game unless it has progressed far enough to have been a regulation game (see above). A game called under either provision (3) or (4) shall be a suspended game at any time after it starts. Note: weather and similar conditions shall take precedence in determining whether a called game shall be a suspended game. A game can only be considered a suspended game if stopped for any of the four reasons specified.

Suspended games shall be resumed at the exact point of suspension immediately preceding the next scheduled single game between the two clubs on the same ground. . .If this is not possible, other provisions for resumption are specified in American League Regulation 3.8.

A game called at the END of a completed inning AFTER NINE INNINGS for any reason shall be a SUSPENDED game. This rule became effective in 1969. Formerly, the game would have been declared a tie and replayed in its entirety at a later date.

DISABLED LIST: Pitchers must be on for a minimum of 21 days. All other players may be placed on a 15 day list.

AMERICAN LEAGUE CURFEWS: No inning of an American League night game can start after 1:00 a.m., local time. Any inning started prior to 1:00 a.m. can be completed.

Saturday night games in Baltimore, Boston, and New York must be halted at 11:59 p.m., local time, regardless of conditions. In other night games in Baltimore, no inning can start after 11:59 p.m., but any inning started before that time may be completed.

Any game, regardless of length, called because of the time curfew, becomes a suspended game and must be completed from the exact point of interruption before the teams play their next scheduled game against each other.

DEFINITION OF NIGHT GAME: Any game scheduled to start after 6:00 p.m., (i.e. 6:01 p.m., or later) will be considered a night game. If a game is scheduled to start at 6:00 p.m., and is delayed by rain or for any other reason, it will be considered a day game.

However, both games of a twi-night doubleheader shall be considered night games. When afternoon and night games are played on the same date and separate admissions are charged, they will be counted as one day and one night game, and will not be included in doubleheader statistics.

BATTING CHAMPIONSHIP QUALIFICATIONS: A batting champion must have 502 or more actual plate appearances. (The equivalent of 3.1 appearances for each of the 162 scheduled games.) If, however, there is any player with fewer than the required number of plate appearances whose average would be the highest if he were charged with the required number of official at bats, then that player shall be awarded the batting championship.

EARNED-RUN AVERAGE CHAMPIONSHIP QUALIFICATIONS: To win the earned-run average championship a pitcher must pitch 162 or more innings and have the lowest earned-run average.

FIELDING CHAMPIONSHIP QUALIFICATIONS: A fielding champion must appear in 108 games at his position, except a catcher, who must appear in 81 games.

DETERMINING THE MAGIC NUMBERS: Determine the number of games yet to be played, and one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

DETERMINING BATTING AVERAGE: Divide the number of at bats into the number of hits.

DETERMINING AN EARNED-RUN AVERAGE: Multiply the number of earned runs by nine; take the number and divide it by the number of innings pitched.

DETERMINING SLUGGING PERCENTAGE: Divide the total bases of all safe hits by the total times at bat (At bats do not include walks, sacrifices, hit by pitcher, or times awarded first base because of interference or obstruction).

DETERMINING FIELDING AVERAGE: Divide the total putouts and assists by the total of putouts, assists and errors.

DETERMINING PERCENTAGE OF GAMES WON AND LOST: Divide the number of games won by the total games won and lost.

CONSECUTIVE HITTING STREAKS: A consecutive hitting streak shall not be terminated if the plate appearance results in a base on balls, hit batsman, defensive interference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

CONSECUTIVE-GAME HITTING STREAKS: A consecutive-game hitting streak shall not be terminated if all the player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference or a sacrifice bunt. The streak shall terminate if the player has a sacrifice fly and not hit.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive-game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

SUSPENDED GAMES: For the purpose of this rule, all performances in the completion of a suspended game shall be considered as occurring on the original date of the game.

"SAVE" RULE: A pitcher shall be credited with a save when he meets all three of the following conditions:

(1) He is the finishing pitcher in a game won by his club, and
(2) He is not the winning pitcher, and
(3) He qualifies under one of the following conditions:
   (a) He enters the game with a lead of no more than three runs and pitches for at least one inning, or
   (b) He enters the game with the potential tying run either on base, at bat, or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces), or
   (c) He pitches effectively for at least three innings.

DESIGNATED HITTER RULE

A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected

and be included on the lineup cards presented to the umpire-in-chief prior to the game. Failure to do so precludes the use of a designated hitter for that game.

The designated hitter is "locked" into the batting order but may be removed for a pinch-hitter or pinch-runner, who in turn becomes the designated hitter. The designated hitter, while still in the game, may be used defensively but the pitcher then assumes the batting order of the replaced defensive player, thus terminating the designated hitter role.

The designated hitter is eligible for all American League batting titles.

SCORING RULE ON PINCH-HITTERS

A player shall be considered a pinch-hitter only if he enters the game as a substitute batter and then only on his first time at bat which must be before he becomes a fielder. If the team bats around and a pinch hitter comes up a second time in the inning in which he first appeared he will not be considered a pinch hitter during that second time up.

A substitute hitter for a Designated Hitter is both a pinch hitter and a designated hitter on his first time at bat. On subsequent trips to the plate he is a Designated Hitter only.

EARNED-RUNS RULE

The determination of earned-runs is as follows:

'An earned-run is a run for which the pitcher is held accountable. In determining earned-runs, the inning should be reconstructed without the errors and passed balls, and the benefit of the doubt should always be given to the pitcher in determining which bases would have been reached with errorless play.'

Until 1969, the reliefer could not be charged with an earned-run if he entered the game after the side could have been retired but for an error, no matter how many runs he subsequently gave up in that inning. Now, runs scored by batters who reach base off the reliefer are charged as earned on that pitcher's record. They are not, however, charged as earned against the team as a whole. Therefore, a discrepancy may occur between the total earned-runs charged against a team and the sum total of the earned-runs charged against the individual pitchers of that team.

DOCTORED BAT: If a filled or "doctored" bat is used, the player is to be ejected from the game and suspended three days. Any balls hit by an illegal bat do not count. If the umpire sees the illegal bat before it is used, he issues a warning, but there is no penalty.

DETERMINING A "MAJOR LEAGUE YEAR": 172 days constitute a full year in the major leagues.

ROOKIE QUALIFICATION: A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of a 25-man limit (excluding time in military service).

GAME WINNING RBI: The RBI that gives a club the lead it never relinquishes.

Exhibition Stadium is situated on the grounds of Exhibition Place at the edge of Lake Ontario in downtown Toronto. The fairgrounds site is a 350-acre complex of exhibition buildings, amusement park, landscaped gardens, restaurants, and concert facilities. It is the home of the Canadian National Exhibition, the largest fair of its kind in the world. The Exhibition, 101 years old this summer, annually attracts over three million visitors in its three-week run from mid-August through Labour Day.

The Stadium also overlooks Ontario Place, a provincial park and entertainment complex of restaurants, cinemas, exhibits, recreation facilities, children's village, and a marina, all in a strikingly modern setting.

The Stadium is owned by the Municipality of Metropolitan Toronto and operated by the Exhibition Stadium Corporation. Built at a cost of $17.8 million and financed by Metropolitan Toronto and a loan from the Province of Ontario, the Stadium is the home of the Blue Jays and the Toronto Argonauts of the Canadian Football League.

TOM CHEEK AND EARLY WYNN

Blue Jays Radio Broadcast Team

The play-by-play of every Blue Jays regular season game, home and away, is handled by Tom Cheek and Early Wynn on the 20 stations of the Hewpex Sports Network.

Tom was born in Pensacola, Florida, and is 39 years old. He attended Plattsburg State College, Plattsburg, New York, and the Cambridge School of Broadcasting. He began his broadcasting career in Plattsburg and moved to Burlington, Vermont, where from 1968 to 1976 he was corporate sales manager and sports director for a group of three radio stations (WVMT in Burlington, WSYB and WRUT-FM in Rutland).

Tom has done extensive sports broadcasting, including play-by-play of baseball, basketball, football, and hockey for the University of Vermont. From 1974 to 1976 he was also a member of the radio broadcast team for the Montreal Expos.

He has long been active in community affairs and was instrumental in organizing the Burlington International Games, an annual sports competition held between the residents of Burlington, Ontario (where he and his family now reside), and Burlington, Vermont.

Tom is married and has three children – Tom Jr. (12), Lisa (9), and Jeffrey (8). His wife Shirley hails from Hemmingford, Quebec.

Early Wynn, member of Baseball's Hall of Fame and one of the great pitchers in baseball history, joins Tom for color commentary and play-by-play. Although new to broadcasting, with 1977 being his rookie season behind the mike, the 59 year-old native of Hartford, Alabama, is one of only six men ever to play major league baseball in four different decades.

Early's historic career began in 1939 with the Washington Senators and continued until 1963, when he won his 300th game as a member of the Cleveland Indians. "Gus", as he is called, was a key member of the legendary Indians pitching staff of the late Forties and early Fifties, winning 20 games or more four times for the Tribe and once later with the Chicago White Sox.

Early also appeared in the World Series in three different years (1948, 1954, and 1959).

As one of only 14 men ever to win 300 games in the major leagues, Early was inducted into the Hall of Fame in 1971.

His vast store of baseball knowledge, anecdotes, and colorful wit and personality makes Early a popular member of the broadcast team, which reaches over one million people throughout Ontario and New York on the Hewpex Sports Network.

THE PEARSON CUP

The Pearson Cup Game will make its first appearance in Toronto on April 19 when the Montreal Expos come to Exhibition Stadium to play the Blue Jays. This will mark the second meeting between the two Canadian Major League teams in this in-season exhibition series named in honour of the late Prime Minister of Canada and Nobel Peace Prize winner Lester B. Pearson. The proceeds from the game are donated to amateur baseball in Ontario, Quebec and Canada with site alternating on a yearly basis between the home parks of the two clubs. Last year's inaugural game went 10 innings before the Expos emerged victorious by a 5-4 score.
